

Valeo Innovation Challenge 2016

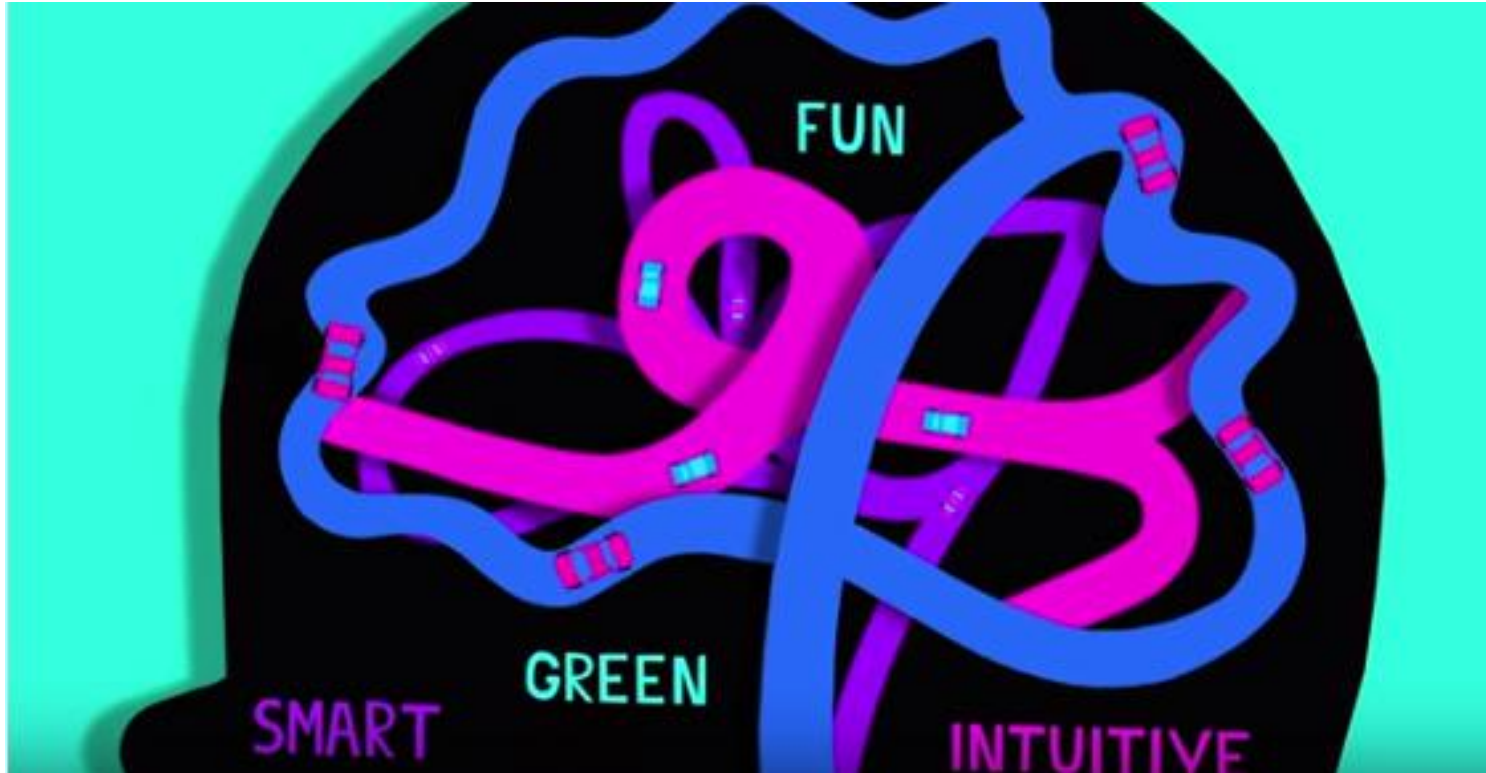

Please Join us!

An international student contest

Young students worldwide have the opportunity to become players in automotive innovation!

The Challenge

Come up with an innovation or idea which would, between now and 2030, make the car and the way it is used more intelligent, intuitive, green and fun.

Two first prizes for this edition 2016 !

VALEO INNOVATION CHALLENGE 2016

€100,000

PRIZE FOR WINNER
“BEST IDEA FOR
A NEW WAY
TO USE CARS”

€100,000

PRIZE
FOR WINNER
“BEST
INNOVATION”

Who can participate?

The contest is open to students worldwide who have completed their high school education, **ALL disciplines.**

The team

Students must compete in teams made up of between two and a maximum of five people.

During phase 1 (Sept 29, 2015 to Jan 15, 2016) it is possible to change the members of the team as well as the project.

The constitution of the team shall only be considered definitive when the registration phase is completed.

What is expected from the projects to make the car of 2030 more intelligent, intuitive, green and fun:

For the "**Best Innovation**" category the project should propose **a product or a system**

For the "**Best idea for new ways to use cars**" category the project should develop **an idea (software, app, business model...)**

The projects must be submitted in English.

The agenda

Key Actions to promote the Challenge

Your contribution is key to spread the word

Contact the local Universities, Student Associations, and all the relevant networks and alumni to collect the largest possible number of Teams registered by January 15!

- A communication kit is available for you :
 - On [Group Communications Portal](#) you will find:
 - Film
 - Poster & Flyers (available in 17 languages)
 - Contest Rules
 - FAQ
 - Invitation letters for Universities and Students
 - [A dedicated website](#)

Each of us is an ambassador for the Valeo Innovation Challenge 2016 !
